

This is Longstone Lighthouse today.

This week we would like you to draw a lighthouse – here is a step by step guide to help you.

To make this lighthouse

- place 5 strips of tape on your paper where you see the white marks
- make a sunset by colour washing with paint, or you could use chalks or crayons.
- Draw a lighthouse on black paper, cut it out and stick it over your sunset
- Remove the tape to show the light shining from your lighthouse.

This lighthouse has been made by cutting a potato in half and using it to print the different stripes.

Can you think of any different ways to paint or draw a light house?

Maybe you could chalk a huge one on the ground outside, or on the wall of your house.

Save your boxes, tubes and yoghurt pots. Next week we are going to build lighthouses!

Don't forget to post your work on our Facebook page and Twitter feed.
