

West Jesmond Primary School

Accessibility Plan 2025-2028

Reviewed and Updated September 2026

At West Jesmond Primary School we are committed to providing a fully accessible environment which values and includes all pupils, staff, parents/carers and visitors regardless of their education, physical, sensory, social, spiritual, emotional and cultural needs. We are committed to challenging negative attitudes about disability and accessibility and developing a culture of awareness, tolerance and inclusion.

Definitions

A person is defined as having a disability if they have a physical or mental impairment that has an adverse, substantial and long term effect on their ability to carry out normal day to day activities.

This plan has due regard to statutory legislation including, but not limited to, the following:

- United Nations Convention on the Rights of the Child
- United Nations Convention on the Rights of Persons with Disabilities
- Human Rights Act 1998
- Special Educational Needs Regulations 2014
- Education and Inspections Act 2006
- Equality Act 2010
- Reasonable Adjustments for Disabled Pupils: Guidance for Schools in England 2012
 - "The duty is 'to take such steps as it is reasonable to have to take to avoid the substantial disadvantage' to a disabled person caused by a provision, criterion or practice applied by or on behalf of a school, or by the absence of an auxiliary aid or service.
 - "The duty to make reasonable adjustments requires a school to take positive steps to ensure that disabled pupils can fully participate in the education provided by the school, and that they can enjoy the other benefits, facilities and services that the school provides for pupils.
 - "Many reasonable adjustments are inexpensive and will often involve a change in practice rather than the provision of expensive pieces of equipment or additional staff.
 - "A school's duty to make reasonable adjustments is an anticipatory one owed to disabled pupils generally, and therefore schools need to think in advance about what disabled pupils might require and what adjustments might need to be made for them."

This policy will be used in conjunction with the following school policies and procedures:

- Special Educational Needs and Disabilities (SEND) Policy
- Health and Safety Policy

Key Aims:

This plan identifies the ongoing actions of the staff and Governing Body to increase access to education for disabled pupils in the following areas and in accordance with Department for Education guidelines:

- To increase the extent to which pupils with disabilities can participate in the curriculum *This covers teaching and learning and the wider curriculum of the school, such as participation in after-school clubs, leisure and cultural activities or school visits.*
- To improve and maintain the school's physical environment to enable pupils with

disabilities to access the facilities and education on offer. *This covers improvements to the physical environment of the school and physical aids to access education.*

- To improve the availability and delivery of written information to pupils, staff, parents/carers and visitors with disabilities.

The Accessibility Plan will be used to measure the necessity of making reasonable adjustments in order to accommodate the needs of people with disabilities where practicable.

This plan will be reviewed every three years by the full Governing Body and annually by the Inclusion Committee.

Contextual Information

West Jesmond is a three form entry primary in Newcastle upon Tyne. We are a highly inclusive school with a broad and diverse range of need. All children have access to all lessons, including PE lessons, where reasonable adjustments are made to the curriculum in order to give them an appropriate experience of the subject. All children are encouraged to attend extra-curricular activities and trips.

Our school is accessible from street level at three (out of four) entrances, including the main school entrance. There is a designated disabled access parking bay within the school car park. The building is two storey, with a lift located near the main entrance allowing access to both floors of the building. The school has wide corridors and doors allowing ease of access to classrooms and hall areas. Handrails are fitted to all stairs. There are disabled access toilets on both floors of the building. In each teaching room there is an electronic interactive white boards which can be used to support those with visual impairments

There is a designated medical room and a designated member of support staff with a medical background to co-ordinate medical care and first aid support. All controlled medication is kept in a central safe and secure place, which has easy access for First Aiders and staff members. In the medical room there is a height adjustable bed available.

Staff are well informed of the individual needs of children that they work with and regular training and CPD takes place in school to inform staff of different medical conditions and Special Educational Needs and Disabilities. Children with medical conditions have an up to date Care Plan which is agreed with parents/carers. A number of staff are trained in paediatric first aid and specific staff are trained to provide specialist medical support.

The school Fire Management Plan addresses any evacuation needs of disabled visitors. There is a 'Personal Emergency Evacuation Plan' (PEEP) is in place and updated regularly for children who are disabled. There is an Evac Chair located in one stairwell.

WJPS Accessibility Plan 2025-2028

TARGET	ACTION	TIMESCALE	OUTCOMES	MONITORING & EVALUATION
To ensure that all areas of the school buildings and grounds are accessible for all children and adults.	- Ongoing as the school building and grounds are developed - Furniture and equipment are selected age related as appropriate, with adaptations where necessary. - Training for staff in the use of EVAC chairs	Ongoing Staff training and organisation of resources in EYFs and KS1 to support the needs of a child with visual impairment	All children are able to access all areas of the school buildings and grounds	Facilities Management Meeting Governors
